

THE LOW-SERIES LOW PROFILE HYDRAULIC HEXAGON TORQUE WRENCHES ARE AN ESSENTIAL TOOL FOR LIMITED CLEARANCE APPLICATIONS

The versatile LOW-Series torque wrenches support an extensive range of interchangeable hexagon ratchet cassettes that deliver a torque range of 232 to 44,593 Newton metres (169 to 32,396 ft/lbs)

LOW Hex Range
19 - 175 mm

LOW Torque Range
232 - 44,593 Nm

Max Operating Pressure
700 Bar

BOLTING SOLUTIONS

360°/ 180° SWIVEL COUPLERS

with screw couplings

ACCURACY

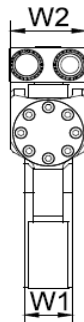

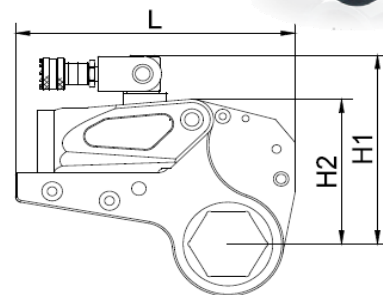

within + / - 3%

HIGH STRENGTH

titanium aluminium alloy body

REDUCER INSERTS

are available in metric and imperial sizes

ANTI LOCKING LEVER
Ease of removing the tool

WIDE RANGE
of metric and imperial interchangeable hexagon ratchet cassettes available

REACTIONS EXTENSION / PADDLES
are available in all length and size

Model	Range of Torque (Nm) @ 700 bar	Hexagon Size Range (mm)	L (mm)	H1 (mm)	H2 (mm)	W1 (mm)	W2 (mm)	Weight Power Head (kg)	Weight Ratchet Link (kg)
